

Net zero emissions by 2050 or by 2030?

"(...) The Glacier Initiative (...) plans for net zero emissions by 2050, in return, no more fossil fuels are expected to be used on the market after 2050, unless there is no other technical solution. (...) Would you vote in favour of this initiative?"

To what extent do you agree to the following statement?
"Policymakers should take measures to reduce greenhouse gas emissions to net zero by 2030"
